Noah Webster
ACADEMY

January 27, 2009

A Statement from the Board of Directors:

Noah Webster Academy is now in its third year of operations, and we, as many of you, have been delighted to see each year increase in operational stability, leadership and governance, curriculum development and implementation, and most importantly - Results in the classroom with our priceless scholars.

Now, three years later, The Board of Directors of Noah Webster Academy is still 100% committed to achieving the vision and mission that was laid out at the founding of this institution and as described in our charter. Our direction and oversight is aligned with empowering staff and administration to continue driving towards this aim of charter fulfillment in instruction, curriculum, Scholar and Teacher development, in operational processes and policies and in all areas of governing, supporting and shaping Noah Webster Academy.

Together, we have accomplished many great things as a school and must continue to prioritize activities, pursuits, time, talents, finances and other vital resources in order to achieve the many great things to come that will take us to the realization of our founding and governing vision.

We ask for continued support and assistance from all stakeholders of this school to align themselves with these objectives and give your service, volunteerism and leadership to this great cause.

We look forward to seeing you there!

Sincerely,

Noah Webster Academy Board of Directors
